**16:40-17:45 ARTIST IN RESIDENCE PLENARY**

Introduced by Petra Dolata (University of Calgary) and Jana Golombek (LWL-Industriemuseum)

We will be joined by DePOT's 2024-2025 artists-in-residence, who will share the work they prepared aligned with the "Race, Populism and the Left" research thematic.

**Raechele Lovell**, a passionate Artist, is rooted on a block of The Haldimand Tract, colonially known as Kitchener, ON Canada. Her journey in the arts began as a child on tour with the polyrhythmic dance and music of her Caribbean heritage, igniting a lifelong quest for creative expression. As a bi-racial artist, with Afro-Caribbean and German Mennonite heritage, Raechele navigates the intricate intersections of identity, culture, and artistry. This rich tapestry of lineage informs her work, intertwining ancestral heritage with contemporary narratives and grounding her in a unique perspective as an Afro-diasporic artist on Turtle Island. As the Founder and Executive Artistic Director of DiverseWorks Dance Co., Raechele envisions a future where Afrocentric artistry thrives. Her latest project, "Uncovering Roots," delves into the historical and contemporary narratives of deindustrialization, exploring personal and collective resilience through movement. Through her unique artistic voice and vision, Raechele aims to inspire and champion change, inviting audiences on a journey of discovery and healing. Her work is a testament to the enduring power of art to connect, transform, and liberate.

**Rémy Chhem** (he/him), co-founder of the Super Boat Collective, is a longtime community organizer, particularly within the Cambodian community. Having been previously involved in the Montreal Life Stories project and the Centre Khémara, he is now focused on creating dynamic projects that foster bridges, collaborations, and dialogue between communities and generations. Within the Super Boat People, Rémy leads various projects related to community and family history in addition to culinary and horticultural knowledge. Outside of the collective, Rémy works as an academic researcher in the social sciences, specialising in political ecology and with a marked interest in history and environmental justice.

For the last 12 years, **Paul Tom** has been drawing on the intimate to tell life stories with sensitivity. His films give a voice to those who are not always heard, creating dialogue and opening our arms to others. Born in a refugee camp in Thailand, his favourite themes to explore are the construction of identity, family relationships, and everything that touches on the fragile side of being human. His films *Seuls* and *Bagages* have been selected for some forty film festivals around the world, winning a dozen awards. He is also the author of the young adult graphic novel *Seuls*, published by la courte échelle.
